(Published in the Canada Gazette, Part I on July 17, 1999.)

Canada Shipping  
Act

# Proposed Regulations

## COMMUNICATIONS

Broadcast Distribution Regulations (Basic Service Fees), amendment. The changes would allow the CRTC to suspend or disallow all or part of a proposed increase in the base or pass-through portion of a cable licensee's basic monthly fees associated with carriage of specialty services on basic cable; require licensees to file information to justify the distribution of a specialty service as a part of basic cable service when increases are proposed; and set out details of the notice the licensee must provide to subscribers about such increases, with a 30-day period for comment by subscribers to the CRTC. (Registered and effective on June 28, 1999) (Published in the Canada Gazette Part I on July 17, 1999; to be published in the Canada Gazette Part II on July 21, 1999)

Broadcasting Act

## HEALTH

Food and Drug Regulations, amendment (Division 1A - Establishment Licences), to make a number of changes relating to the exemptions from the Establishment Licensing Framework that are granted to drug manufacturers operating from a foreign jurisdiction and that are granted to distributors and importers with respect to some good manufacturing practice requirements. One change proposed would limit the exemptions to those products and activities assessed as equivalent by Canada's Mutual Recognition Agreements with regulatory agencies in other countries. Another change would extend the exemption for product retesting in Canada to distributors of products from firms holding a Canadian Establishment Licence, as well as the exemption for maintaining a manufacturing control system to ensure good manufacturing practices compliance for drugs fabricated and packaged/labeled on premises other than their own. (Published in the Canada Gazette July 17, 1999)

<b>OTHER</b>		
1441	Adopt a new text of the Oath of the members of the Queen's Privy Council for Canada. (Approved August 3, 1999)	Prerogative
<b>Proposed Regulations</b>		
<b>FISHERIES</b>		
	Manitoba Fisheries Regulations, 1987, amendment. The proposal would replace the existing ticketable offences and fines schedule with a new schedule which upgrades some of the present fines to bring them into line with those of adjacent provinces, Saskatchewan and Alberta. The new schedule would also add ticketable offences and fines previously not included so as to reduce the number of offences for which court appearances are required. (Published in the Canada Gazette Part I on August 7, 1999)	Fisheries Act

## INTERNATIONAL TRADE

Marking of Imported Goods Regulations, amendment, to make two amendments relating to NAFTA. The first amendment would extend the authority to mark non-NAFTA importations in English, French or Spanish. The second change would make the NAFTA requirement to mark goods to identify the country of origin of the goods to the ultimate purchaser as the standard requirement. (Published in the Canada Gazette Part I on August 7, 1999)

Customs Tariff

## TRANSPORTATION

Transportation of Dangerous Goods Regulations. The proposed new regulations are a pilot project, approved by the Department of Justice, in preparing regulations in clear-language. Re-written in clear language, the Regulations look different from the way in which regulations are normally presented for publication in the Canada Gazette. The proposed Regulations would replace the Transportation of Dangerous Goods Regulations that came into force in July 1985 and that have been subsequently amended 23 times. (Published in a special supplement to the Canada Gazette Part I on August 7, 1999)

	Regulations Amending the Motor Vehicle Safety Regulations (Incomplete Vehicles), to introduce new requirements governing vehicles manufactured in two or more stages (incomplete vehicles) in order to ensure that, once completed, they will conform to all the applicable Canada Motor Vehicle Safety Standards. This amendment would change the terminology used for referring to these vehicles and set requirements governing all three phases of the manufacturing process: the initial, intermediate, and final stages. The amendment would add sections 6.1 to 6.6, which outline documentation and labelling requirements, to the general provisions of the Regulations. These provisions would require initial-stage vehicle manufacturers to provide completion guidelines to the subsequent manufacturer and would require subsequent manufacturers to document the changes they have made. This amendment would also make the final-stage manufacturer responsible for completing the vehicle in such a manner that it conformed to all the standards, for affixing the compliance label, and for retaining the vehicle documentation for a period of no less than five years after the final-stage manufacturing operations have been completed. Proposed paragraph 5(2)(a) stipulates that, before they are completed, incomplete vehicles are subject to the requirements of the standards set out in Schedules IV and VI, to the extent that they govern the components of the vehicle. The amendment would come into force one year after the date of its registration. (Published in the Canada Gazette on September 18, 1999)	Motor Vehicle Safety Act
	Motor Vehicle Safety Regulations (Liquefied Petroleum Gas), amendment, to update references to standards and test methods. (Published in the Canada Gazette on September 18, 1999)	Motor Vehicle Safety Act
	Motor Vehicle Safety Regulations (Vehicles Imported Temporarily for Special Purposes, Compliance Labels and Competition Vehicles), amendment, to introduce a new prescribed class of vehicle called "vehicle imported temporarily for special purposes"; to prohibit anyone but the manufacturer from affixing the compliance label; and to introduce an identification requirement for all competition vehicles, while at the same time deregulating competition motorcycles and competition snowmobiles. (Published in the Canada Gazette on September 18, 1999)	Motor Vehicle Safety Act

	Regulations Amending Phosphorus Concentration Regulations (Miscellaneous Program), to rollover the following regulations under the new legislation: Phosphorus Concentration Regulations. (Published in the Canada Gazette Part I on November 6, 1999)	Canadian Environmental Protection Act, 1999
	<b>EMPLOYMENT</b>	
	Employment Insurance Regulations, amendment, to redefine "period of employment" for undeclared earnings. The proposed new definition means that unreported earnings will not be assigned to calendar weeks of no work or earnings but will continue to apply to weeks in which a claimant has some work or earnings. This approach is fairer to claimants as the undeclared earnings will only affect weeks in which a claimant had some work or earnings and will not affect weeks of lay-off in which benefits were rightly paid. (Published in the Canada Gazette Part I on November 6, 1999)	Employment Insurance Act
	Employment Insurance Regulations, amendment, to authorize the Department to produce in late-December 1999 a computer tape containing the requisite information from every active claimant's computer file. This will permit each regional pay centre to independently produce advance benefit warrants/cheques for each claimant who is claiming Employment Insurance (EI) benefits in January 2000 without the immediate necessity of having the regular reporting cards that are required to issue cheques. This will provide an alternative system in the event of a Y2K disruption. (Published in the Canada Gazette Part I on November 6, 1999)	Employment Insurance Act
	<b>PARKS</b>	
	National Parks Wilderness Area Declaration Regulations, to establish wilderness areas within Banff, Jasper, Kootenay and Yoho national parks. With two exceptions, all lands identified as Zone I and Zone II in the park management plans are being declared wilderness areas. Areas of land in Banff National Park that are subject to a specific claim by the Siksika Nation in relation to the conduct of traditional ceremonial activities have not been included in the wilderness areas to be declared for that park. Lands under negotiation in the development of the Sunshine ski area in Banff National Park have also been excluded. (Published in the Canada Gazette Part I on November 6, 1999)	National Parks Act
	<b>TRANSPORT</b>	
	Port Authorities Operations Regulations, to establish rules for safety, order and operations at ports that are managed by Canada Port Authorities under the Canada Marine Act; they would replace similar operations by-laws that are currently in place for each port. (Published in the Canada Gazette Part I on November 6, 1999)	Canada Marine Act
	Order Repealing Certain Orders Made under the Canada Shipping Act (Miscellaneous Program), to repeal the Pleasure Yachts Marking Order and the Small Fishing Vessels Draught Marks Exemption Order. (Published in the Canada Gazette Part I on November 6, 1999)	Canada Shipping Act
	Small Vessel Regulations, amendment. (Published in the Canada Gazette Part I on November 6, 1999)	Canada Shipping Act
	Regulations Excluding Certain Government Ships from the Application of the Canada Shipping Act. (Published in the Canada Gazette Part I on November 6, 1999)	Canada Shipping Act
	Regulations Repealing Certain Regulations Made under the Canada Shipping Act (Miscellaneous Program), to repeal the Registration of Government Ships Regulations; the Ship's Draught Marks Exemption Order; Ships' Names Registration Regulations; and the Ships Registration Forms Regulations. (Published in the Canada Gazette Part I on November 6, 1999)	Canada Shipping Act

Ship Registration and Tonnage Regulations, to introduce new Ship Registration and Tonnage Regulations (includes the repeal of the existing Tonnage Regulations), Regulations excluding certain Government Ships from the application of the Canada Shipping Act, Regulations amending the Small Vessel Regulations, Regulations Repealing Certain Regulations Made under the Canada Shipping Act (includes Ships Registration Forms Regulations, Ships' Names Registration Regulations, Registration of Government Ships Regulations and Ships Draught Marks Exemption Order), and Orders Repealing Certain Orders Made under the Canada Shipping Act (includes Pleasure Yachts Marking Order and Small Fishing Vessels Draught Marks Exemption Order). ## Proposed Regulations

### CORPORATE AFFAIRS

Competition Tribunal Rules, amendment, to harmonize them with the amendments contained in Bill C-20, *An Act to amend the Competition Act and to make consequential and related amendments to other Acts*. The Rules amend definitions to reflect new provisions of the Act and contain new rules concerning Tribunal decisions and orders under the deceptive marketing practices provisions of the Act (Part VII.1), providing for new temporary orders and the power of the Tribunal to rescind or vary an order where the circumstances that led to the making of the order have changed. The Rules contain a separate code of procedure for the registration of consent orders entered into by the Commissioner of Competition and persons against whom the orders are sought. (Published in the Canada Gazette Part I on November 13, 1999)

Competition Tribunal Act

\*\* The date which is in brackets at the end of each item refers to the date when it was given Cabinet approval.

## ENVIRONMENT

Order Adding Toxic Substances to Schedule 1 to the Canadian Environmental Protection Act, 1999, to add 20 substances. (Published in the Canada Gazette Part I on November 13, 1999)

Canadian Environmental Protection Act, 1999

## TAX CHANGES

Gasoline Excise Tax Regulations, to merge and revise the Gasoline and Aviation Gasoline Excise Tax Application Regulations and the Gasoline and Aviation Excise Tax Regulations into a new set of regulations, to simplify their administration and enforcement, and make them easier for the public to understand. The regulations also eliminate the requirement of an individual applicant to provide their social insurance number on an application for rebate. (Published in the Canada Gazette Part I on November 13, 1999)

Excise Tax Act

## TRANSPORT

Motor Vehicle Safety Regulations (Low-speed Vehicles), amendment, to introduce a new class of vehicle, namely low-speed vehicles (LSVs), introduce their minimum safety requirements under Motor Vehicle Safety Standard (MVSS) 500, and define LSVs as four-wheeled electric vehicles which have a minimum attainable speed of 32 km/h and a maximum top speed of 40 km/h. To ensure that LSVs remain distinct from other vehicle classes, the definitions of passenger cars and multipurpose passenger vehicles will also be amended; sections 6 and 12 specifying the labelling requirements will also be amended in accordance with the new LSV vehicle class. (Published in the Canada Gazette Part I on November 13, 1999)

Motor Vehicle Safety Act

Motor Vehicle Tire Safety Regulations, 1995, to increase the number of characters in the tire date code from three to four; two characters which indicate the week of manufacture of the tire and two which indicate the year of manufacture of the tire. This change will apply to all motor vehicle tires manufactured or imported into Canada. The intent of the proposed amendment is to harmonize with similar changes in Europe and the United States and to provide clarification of the date code marking. (Published in the Canada Gazette Part I on November 13, 1999)

## Ministerial Orders

### ENVIRONMENT

SOR/99-445	Domestic Substances List and the Non-domestic Substances List, amendment. (To be published in the Canada Gazette on December 8, 1999)	Canadian Environment Protection Act
SOR/99-446	Domestic Substances List and the Non-domestic Substances List, amendment. (To be published in the Canada Gazette on December 8, 1999)	Canadian Environment Protection Act

## Proposed Regulations

### DEFENCE

Military Police Professional Code of Conduct, to implement the military police corporate administration changes made to the National Defence Act in chapter 35. These Regulations provide for a Military Police Professional Code of Conduct pursuant to section 13.1 of the National Defence Act. The Code prescribes standards of professional conduct for members of the military police. The Code will come into force on December 1, 1999. The changes are a result of the recommendations contained in the Report of the Commission of Inquiry into the Deployment of Canadian Forces to Somalia with respect to the establishment of oversight and review mechanisms within the military police organization. (Published in the Canada Gazette on November 20, 1999)	National Defence Act

### FOOD AND DRUG

Regulations Amending the Food and Drug Regulations (1142 — Pyridaben), to establish Maximum Residue Limits (MRLs) under the Food and Drugs Act for residues of pyridaben resulting from this use in apples and peaches/nectarines, and in imported pears and almonds, in order to permit the sale of food containing these residues. (Published in the Canada Gazette on November 20, 1999)	Food and Drugs Act

	<p>Regulations Amending the Food and Drug Regulations (1152 — Flusilazole), to establish Maximum Residue Limits (MRLs) under the Food and Drugs Act for residues of flusilazole resulting from this use in apples and in imported grapes, raisins and bananas, in order to permit the sale of food containing these residues. This proposed amendment would also establish MRLs in meat and meat by-products and milk to cover residues in food derived from animals fed with crops treated with flusilazole. (Published in the Canada Gazette on November 20, 1999)</p>	Food and Drugs Act
	<p>Regulations Amending the Food and Drug Regulations (1156 — Oxyfluorfen), to establish Maximum Residue Limits (MRLs) under the Food and Drugs Act for residues of oxyfluorfen resulting from this use in strawberries, in order to permit the sale of food containing these residues. (Published in the Canada Gazette on November 20, 1999)</p>	Food and Drugs Act
<b>LABOUR</b>		
	<p>Canada Occupational Safety and Health Regulations, amendment, to change Part V (Boilers and Pressure Vessels), to introduce a more flexible schedule was needed that would differentiate between high and low risk as well as take into account advances in technology which had occurred over time, especially in the areas of automated operation, remote monitoring of equipment and new, more effective inspection and testing methods. The principal modifications include the addition of a number of definitions to provide greater clarity in interpreting Part V; a definition of an inspector that will provide employers with some flexibility in ensuring that equipment is inspected in accordance with federal requirements; clearer and more specific provisions addressing conditions for which an operator is required to be present when the equipment is operating; a new and expanded inspection schedule that takes into account danger levels and advances in technology; and added flexibility in inspection frequencies for certain items contingent upon the performance of annual, non-destructive testing (NDT) by qualified NDT technicians. (Published in the Canada Gazette on November 20, 1999)</p>	Canada Labour Code
<b>TRANSPORTATION</b>		
	<p>Motor Vehicle Safety Regulations (Power-assisted Bicycles), amendment, to relieve power-assisted bicycles from having to comply with the federal safety standards provided they possess certain characteristics. A power-assisted bicycle requires the use of pedals and the motor is only permitted to provide assistance to the rider up to a speed of 24 km/h. (Published in the Canada Gazette on November 20, 1999)</p>	Motor Vehicle Safety Act
	<p>Motor Vehicle Safety Regulations (Vehicle Identification Number), amendment, to apply the current 17-character VIN, used on such vehicles as passenger cars, trucks, buses, and trailers, to snowmobiles. The manufacturers of snowmobiles would, starting January 1, 2001, be required to include all the same decipherable information in the VIN as is currently done by the manufacturers of other vehicles. Such uniquely decipherable information as the country of origin, the manufacturer, the manufacturing plant, the snowmobile make, model and type, the engine type, the engine net brake power, and the year of manufacture would be required to be included in the VIN on all snowmobiles manufactured in or imported into Canada.</p> <p>The present standard permits snowmobiles to have a vehicle identification number of fewer than 17 digits. The proposed amendment would increase the total number of alphanumeric characters in the vehicle identification number to 17 and would specify the meaning and placement of each alphanumeric character so that the information contained in it can be deciphered. (Published in the Canada Gazette on November 20, 1999)</p>	Motor Vehicle Safety Act

## Proposed Regulations

### AGRICULTURE

Health of Animals Regulations, amendment, to establish a new approach to the importation of regulated live animals and their germplasm, including the development of risk categories for areas of origin, equitable application of import requirements to all countries, and the use of information technology and the recognition of advances in the industry standard, such as in animal identification. It would also prohibit the importation of animals that have been vaccinated for a disease exotic to Canada. The animal health risk categories – equivalent risk, low risk and higher risk – allow the documentation requirements to be reduced for importations originating in areas that have been evaluated as having a health status equivalent or superior to Canada for all reportable diseases in a particular species. Areas with a health status inferior to Canada (higher risk) will have significant restrictions to ensure Canada's health status is unchanged or importation could be prohibited. Individual states in the United States or other countries may apply to Canada and be assessed as equivalent to Canada for all reportable diseases affecting a particular species. If designated as equivalent, subsequent trade would be based on a certificate of origin. (Published in the Canada Gazette Part I on December 18, 1999)

Canada Agricultural Products Act

Licensing and Arbitration Regulations, amendment, to recognize the creation of an industry-run tri-national dispute resolution corporation. This corporation, the Fruit and Vegetable Dispute Resolution Corporation (DRC), was created in response to article 707 of the North American Free Trade Agreement (NAFTA) to serve as a private dispute resolution body for the fresh fruit and vegetable sectors in Canada, Mexico, and the United States. The amendments exempt DRC members from the requirements of the Licensing and Arbitration Regulations. This proposal also responds to a request by the national industry associations — the Canadian Produce Marketing Association (CPMA) and the Canadian Horticultural Council (CHC) — to phase in the responsibilities of the industry-run DRC. (Published in the Canada Gazette Part I on December 18, 1999)

Canada Agricultural Products Act

## FINANCE

Exemption from Deposit Insurance By-law (Prescribed Deposits), to implement policy set out in the legislation to allow certain exceptions to the prohibition on retail deposit-taking applicable to banks that wish to opt out. The By-law sets out the exceptions, which are limited to deposits from specified classes of depositors that are deemed to be sophisticated. Once the By-law is in force, only prescribed deposits under \$150,000 will be excluded from the pool of deposits on which the calculation of the one percent de minimis rule set out in paragraph 26.03(1)(b) of the CDIC Act is based. This is one of the criteria that a bank applying to opt out must meet before authorization to opt out is granted by CDIC. (Published in the Canada Gazette Part I on December 18, 1999)

Canada Deposit  
Insurance Corpora-  
tion Act

## ENVIRONMENT

Migratory Birds Regulations, amendment, to expand the geographic area of Manitoba where special conservation season hunting for greater snow geese and mid-continent lesser snow geese may be held. The changes would also increase the clarity of the regulation text and improve the cost-efficiency of the Regulations. Registration of hunters will no longer be necessary. Ross' geese will no longer be included in the special hunts. (Published in the Canada Gazette Part I on December 11, 1999)

Canadian Environ-  
mental Protection  
Act, 1999

## JUSTICE

Regulations Amending the Regulations Prescribing Exclusions from Certain Definitions of the Criminal Code (International Sporting Competition Handguns), to expand the list of handguns excluded from the prohibited firearms class. The list is also reorganized alphabetically by the make of the firearm in order to make reference to it easier. (Published in the Canada Gazette Part I on December 18, 1999)

Criminal Code

## OTHER

Order Amending Part 2 of the Schedule to the Royal Canadian Mint Act, to add characteristics for the fifty, twenty-five, ten and five cent coins which differ from the characteristics authorized under the said Part 2. The use of nickel, copper and nickel-plated steel as a metal composition for the fifty, twenty-five, ten and five cent coins will reduce the cost of manufacturing circulation coinage and save the Government an estimated \$9.5 million annually (using 1997 costs and an annual volume of approximately 310 million coins). (Published in the Canada Gazette Part I on December 18, 1999)

Royal Canadian  
Mint Act

Order Authorizing the Issue of Circulation Coins of Fifty Cents, Twenty-Five Cents, Ten Cents and Five Cents and Specifying their Characteristics, to permit the use of nickel, copper, nickel plated steel as metal compositions for the fifty, twenty-five, ten and five cent coins. (Published in the Canada Gazette Part I on December 11, 1999)

## FOOD AND DRUGS

Fees in Respect of Medical Devices Regulations, amendment, to proposes a fee reduction provision for medical device establishment licensing fees which are scheduled to come into effect on January 1, 2000. New information from stakeholders indicates that the original approved fees would have a negative impact on some unique, low volume product lines, such as motorized patient lifts and neck braces. This proposal would introduce a fee reduction provision now, until such time as Health Canada has fully evaluated the impact of these fees on the industry, and their effect on product availability. More specifically, the fee would be the lesser of \$2,120 or 1 percent of the establishment's annual gross revenue for the previous fiscal year. In the case of an establishment with no annual gross revenue for its first fiscal year, a fee reduction and remission provision is proposed. The full fee would be paid by such an establishment at the time of the issuance of the Establishment Licence, subject to a possible reduction once annual gross revenue has been determined. In addition, the \$2,530 initial licensing fee would be revoked. A remission of \$410 would be granted automatically to those who have paid the \$2,530 fee for the year 2000. (Published in the Canada Gazette Part I on December 25, 1999)

Food and Drugs Act

### NORTHERN AFFAIRS

Yukon Timber Regulations, amendment, to introduce a market driven basis for stumpage fees and to make a number of other changes to the regulations, including modernizing various aspects of the Regulations and responding to the Standing Joint Committee for the Scrutiny of Regulations concerning the lack of notice and appeal provisions within these Regulations. The proposed calculation of stumpage fees would: (a) provide a market-driven stumpage rate within the parameters of prescribed dues (dues to be set on a quarterly basis); (b) provide fair rates for differing grades of wood; (c) provide for harvesting on a priority basis and harvesting through an open bid system to better manage the resource; (d) provide a balance between the Crown rent and industry's ability to pay; and (e) provide fees for processing as a cost of carrying out Crown duties. (Published in the Canada Gazette Part I on December 25, 1999)

Territorial Lands  
Act

Yukon Forest Protection Regulations, amendment, to replace section 14 with provisions to allow a forest officer to enter into insect infested or diseased forest lands without permission and take any measures to eradicate or control the insects or disease. The proposed amendments would set out the procedures to be followed in taking such action. (Published in the Canada Gazette Part I on December 25, 1999)

Territorial Lands  
Act

### PUBLIC SERVICE

Public Sector Pension Investment Board Regulations, to specify the kinds of pension benefits that would disqualify a person from serving as a director of the Public Sector Pension Investment Board or Chairperson of the nominating committee. Under the proposals, disqualification is to result in cases where pension benefits and entitlements are payable under the Judges Act, the Governor General's Act, the Lieutenant Governors Superannuation Act, and in respect of most other employer-sponsored pension benefits payable out of various Government of Canada accounts, including pension benefits payable out of the Consolidated Revenue Fund to employees engaged locally outside of Canada. (Published in the Canada Gazette Part I on December 25, 1999)

Public Sector Pen-  
sion Investment  
Board Act
